Carole Little
President/CEO

Denese Hammon
CFO

Dear Scott,

I would like to share a note with you that we received from a woman named Brenda. Her words show the impact that NAM has on Neighbors in Need:

"I don't know what would have happened without NAM, but it wouldn't have been anything good...It changed my life. It made me realize I could do a lot of things I didn't know I could do. It gave me courage to get up and do things for myself and be independent. I even went to college for two years. I have my priorities in order. I make sure my bills are paid. Now, I have my pride and everything is in order. I don't have a whole lot, but what I have is mine."

Thanks to your support, we can help many more people just like Brenda. We are especially grateful for your most recent gift to Northwest Assistance Ministries (NAM) for general assistance. Without the help of neighbors like you in our community, we could not carry out our mission of meeting basic human needs through Neighbors Helping Neighbors.

Last year, we were able to help over 130,000 people thanks to the support of friends like you! Your contribution does make a difference. If you'd like to see that difference for yourself, please contact me at 281-885-4605 to schedule a tour. You also can visit our website at www.namonline.org.

Best regards,

Maria F. Magee
VP of Fund Development
